Summary: On April 16, 2001, Brian Cherry, Chief of Regulatory Relations of Pacific

Gas and Electric Company (PG&E), participated in an all-party meeting met with Cmmr. Brown in San Francisco. A list of other attendees is attached to the notice. Cherry stated that the proposed decision grants Sempra's Consolidated Procurement Department the right to confer with San Diego Gas & Electric Company and other electric generators on tolling arrangements. Cherry stated that PG&E is prohibited from such transactions and, should the Commission grant Sempra this right, then PG&E should be given similar treatment. Cherry also stated that PG&E's Core Procurement Department is interested in obtaining an incremental 50 MMcfd of brokered interstate capacity that is returning to Southern California Gas Company (SoCalGas), but that PG&E needs assurance that the transportation costs will be treated identically to SoCalGas' transportation costs.

Summary: On April 16, 2002, Mark Pocta, on behalf of the Office of Ratepayer Advocates (ORA), attended an all-party meeting with Cmmr. Brown in San Francisco. Also present were Belinda Gatti, advisor to Cmmr. Brown, and other attendees listed on the attachment to the notice. Pocta expressed ORA's support for the proposed decision (PD), with one exception. Pocta stated that ORA opposes the allocation of all unassigned El Paso capacity to Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company core customers. Pocta suggested that the PD be modified so that only unassigned El Paso capacity with a delivery point into the SoCalGas system be allocated to core customers. Pocta explained that ORA proposed a slight modification to the PD that would adhere to the intent of its original proposal but not require delving into the minutia of delivery points.

Sullivan noted that SDG&E's core customer group is roughly 1/8th the size of SoCalGas' core customer group and combining the portfolios will provide SDG&E customers with less volatility. Sullivan stated that the savings of efficiency gain flow to both sets of core customers. Sullivan also noted that the significant customer benefit achieved by combining the core portfolios will remain no matter which proposal the Commission chooses as resolution to that issue.

4/22/02 A00-06-023 Southern California Gas Company, regarding Year Six (1999-2000) under its experimental Gas Cost Incentive Mechanism and related gas supply matters

Summary: On April 17, 2002, Mark Pocta, the Office of Ratepayer Advocates (ORA) Manager, participated in an all-party meeting with Cmmrs. Duque and Brown in San Francisco. Also present were Patrick Gileau, staff counsel for ORA, and other attendees listed on the attachment to the notice. Written material (attached to the notice) was used. Pocta noted the current Gas Cost Incentive Mechanism (GCIM) was intended to replace reasonableness reviews that gave the utilities an improper incentive to avoid disallowances as opposed to reducing gas costs. Pocta also explained that the Settlement would cap the shareholder reward at 1.5% of total gas costs. Referring to the ORA's communication with Southern California Gas Company regarding its gas procurement practices, Pocta stated that the savings generated during year seven would be impossible without the GCIM. Gileau rebutted the California Edison Company's contention that because of the constrained conditions on the system the return of 11 Bcf in Hub loans during the winter of 2000/2001 contributed to higher gas prices.

Summary: On April 17, 2002, Brian Cherry, Chief of Regulatory Relations of Pacific Gas and Electric Company (PG&E), attended an all-party meeting with Cmmr. Duque in San Francisco. Also present were other attendees listed on the attachment to the notice. Cherry stated that the commodity incentive mechanisms appropriately incite utilities to procure the low cost gas supplies. However, Cherry also noted, that when utilities follow the rules and achieve significant savings, they should not be required to reallocate those savings differently from what is promised under the mechanism. Cherry also stated that changes to the mechanism should be prospective, not retrospective.

Schavrien recommended that the proposed decision (PD) be adopted without modification. Schavrien stated that the settlement parties support the PD as it reflects a careful, thoughtful review of the record. Schavrien also explained that Edison's opposition to the settlement agreement was correctly dismissed by the PD. Ellis and Suwara noted that the market power allegations had been the subject of extensive testimony in this proceeding. Harrigan stated that the GCIM authorizes SoCalGas' Gas Acquisition Department to utilize rights assigned to and paid for by SoCalGas' core customers.
